Welcome to our campus

Online learning is becoming increasingly popular, with take-up soaring especially over the last few months due to the continuing coronavirus crisis. Whether you're doing it interactively or passively, from your home, in your practice, or when you're on the move – e-learning offers a multitude of advantages.

To provide interested individuals around the globe with an even more attractive e-learning experience in future, we have pooled our range of digital training and continuing education courses on the FORESTADENT Campus 365. Whether you're looking for upcoming live online course events, FORESTADENT online symposia, webinars, product courses, or training videos – here you'll find all the tools you need to make your on-screen learning comprehensive and appealing.

Dear Clients, Partners, and Friends,

the pandemic has turned out to be a game changer with many challenges in our professional and personal lives. However, change is always a chance.

Today we cordially want to invite you to be part of our FORESTADENT Online Seminar. The edition 1/2021 takes place on January 29. Four prominent representatives of the orthodontic profession will share their knowledge with you and we will again create a unique experience to make you feel being part of the huge and fast growing, global FORESTADENT family.

We are looking forward to have you with us on January 29, 2021! Stay safe and all the best for a better 2021.

Your FORESTADENT Team

Speaker

- 16:00 - 16:45 - Dr. Simon Graf, Basel - Metal printed orthodontic appliances in combination with mini implants
